REMOTE MINE  
IN A CORNER  
OF NEVADACOMPANY CLAIMS ENOUGH ORE  
BLOCKED OUT TO RUN  
FOR SIX YEARS.

New machinery is being installed by the South Nevada Gold Mining company, and although difficult roads have rendered transportation of material a matter of some concern, the work is now nearing completion and the new plant will soon be in actual operation.

While a powerful steam outfit is now being installed, it is the intention of the company to later displace this with electrical motive power, the steam plant to be held as a reserve. Machinery now being put in is to have a crushing capacity of 140 tons a day on the free milling ore, the values to be extracted through being run over sixteen Wilfley concentrating tables. The mill plant is divided into four units, any one of which may be operated independently of the others. The first of these will go into commission, it is believed, about December 1, with a force of forty-six men.

Water in abundance has been secured through sinking a well just below the mine, where a powerful pump has been installed. It is claimed that the company now has blocked out enough ore to run the four-section mill for six years, and that the ore will produce values from \$20 to \$30 a ton.

An interesting item in the company's campaign for self-support is in the fact that it has in the valley near the mine forty acres of ground under cultivation to produce garden stuffs for officers and employees. The people of Las Vegas and Clark county contemplate co-operating with the mine management to build a good road, which will form a stem from which branch the roads to St. Thomas, the Colorado river via Vegas Wash, Nelson and Searchlight, thereby constituting an important industrial factor in the entire county.

OPENS UP SILVER-  
LEAD PROPERTY  
NEAR GERLACHTWENTY-TWO HUNDRED FEET  
OF TUNNELS AND MAIN  
SHAFT DOWN 600.

John Harman, president of the Tohoque Mining company, whose silver-lead properties are located at Leadville, has been at the Hotel Lafayette for the past few days, says the Silver State.

The property is situated 40 miles from Gerlach, and has been opened up by tunnels and shafts. There are about 2200 feet of tunnels, and the main shaft is down for 600 feet, with drifts running from every 100-foot level. A 50-ton mill on the property concentrates eight tons of ore in one day. Eleven months ago California parties leased a block of the ground and built a 75-ton mill. They have driven a tunnel for 1500 feet and are now in good ore.

At present the concentrates are hauled to Gerlach, a distance of 40 miles, where all supplies are obtained. In the spring, however, Mr. Harman intends to use Trogo for his railroad point, it being some 15 miles nearer the mine. For this purpose a few miles of wagon road will be constructed during the coming winter.

## RICH STRIKE AT ROCHESTER.

A private telegram from Harry Hunter at Rochester yesterday bore the news that a rich strike had been made on one of the lower levels of lease No. 1 of the Rochester Mines company property. Also that the recent strike in the Rock tunnel of the Weaver property is holding out and looks as if permanent.—Salt Lake Tribune.

## AMUSEMENTS

## Butler Theater.

At the Butler theater this afternoon and evening the following program of pictures will be shown: "Mary's Temptation," an interesting Lubin drama; a Selig split-reel showing two comedies, "They Were on Their Honeymoon" and "The Adventures of a Watch"; "The Green Eye of the Yellow God," an Edison drama; and a Vitagraph comedy-drama entitled "Their Mutual Friend." Acting as Cupid's messenger, a dog brings about the union of two loving hearts. The young woman finds the dog, who has made friends with her previously, in a dog fancier's window. She spends her little all on him and brings him back to his master, who has grieved deeply over the faithful animal's loss. The girl is rendered supremely happy when the dog's master takes her as his wife and receives a great surprise when she finds that her husband is wealthy and not the poor man she had thought him. Tomorrow, "Dolly Varden," an Edison feature. This evening, the football game between the Tonopah and Goldfield high school teams.—Adv.

If you bought nothing but advertised goods during the next twelve months, you'd reduce the cost and raise the standard of living—surprising!

ROADHOUSE COMPLAINED  
OF BY WILLOW CREEK

Men operating in the vicinity of Willow Creek complain of the conduct of a rag ex-hon on the main road which, they say, is causing trouble among men employed in that district by drawing them away from their work and provoking fights. Sheriff Malley explained that when the application was before the county

commissioners he inquired if there were any objections and was told the applicant was all right. If there is any misbehavior there the mining men can complain to the county commissioners at the next meeting, when the license will be revoked.

The Bonanza hereafter will not be sent to anyone, after the expiration of current subscription unless the same is renewed by direct request.
